

## DuraComfort Anti-Fatigue Mats

DuraComfort Comfort Mats combine a penetration-free, solid nitrile rubber outer layer with a dense rubber cushion core. This provides for a uniquely versatile anti-fatigue mat with several surface texture and border options.

DuraComfort Mats offer two heavy-duty surface patterns: the textured surface and the grip surface for added traction.

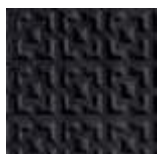

- These anti-fatigue mats are available as stand-alone mats with beveled edges on all 4 sides.
- DuraComfort mats are ideal for wet and dry environments, are static-dissipative, grease-proof and welding safe.
- Grippers on the backside of the DuraComfort help minimize floor mat movement on any surface.
- Available 1/2" thick in black and OSHA-approved striped yellow border colors.
- Environmental Green Rating: 20% Recycled Content.

Item No: FHFAM
